Nine Moons

OUR MISSION:

Unlike other products on the market, our SwellyBelly Band and Nursing Cover are not meant to hold up pants or skirts, rather to cover the belly allowing for longer wear of pre-maternity shirts while keeping that fashionable look. They are perfect for the first trimester when the belly is still too small for maternity shirts, or later in pregnancy when the belly is too big for the maternity shirts already purchased months earlier that no longer fit properly.

It is designed with two elastic bands, one on the top and one on the bottom. This provides comfort and assures that the band does not drop or rise with movement.

It is made out of a silky, breathable, non constrictive material and will provide that up-to-date layered look that we all like. The SwellyBelly Maternity Belly Band can also be worn after the birth of a child to stay covered while breastfeeding. It is worn just as it was during pregnancy, allowing a woman to wear regular shirts without exposing her belly or back while nursing her bundle of joy.

Thank you,

Nine Moons
